

# KRRISH GUPTA

MULTIDISCIPLINARY DESIGNER

## ABOUT ME

I am a multidisciplinary designer driven by curiosity, empathy, and a deep interest in creating meaningful, responsible work. I enjoy exploring diverse ways of thinking and making, often blending different approaches to arrive at solutions that feel both intentional and emotionally engaging. My projects reflect a sensitivity to people, contexts, and the environment, whether I'm designing experiences, systems, or visual narratives. I bring creativity, critical thinking, and adaptability to every brief, and I'm motivated by the challenge of turning complex ideas into clear, impactful outcomes.
